This is a time to deepen your spiritual life and take in the breathtaking sites of what God has created for you to enjoy. If you are open, this trip can change your life and deepen your relationship with Jesus. This trip will include various fun elements, but is meant to be a time of serious reflection and meditation on what God wants to do in your life. It is not a trip to simply get away from home. This trip will require attendees to camp in tents, and give up several normal comforts. This is all part of the experience, but the entire trip will be richly rewarding!
